What is Stir?

What is Stir?

What is Stir?

Stir is a new starting point for talking about faith and Christianity.

Stir is understanding the questions people are asking about God and faith.

Stir is overcoming the relevancy barrier to the gospel- the one that sounds like:

"So what?"

"Why think about faith in the first place?"

"Why would it matter if God exists, aren't we better off without God?"

Stir is about stimulating spiritual curiosity by discovering our soul.

(00:00:34.600 --> 00:01:16.300)

As we experience spiritual emotions, longings and questions start to bubble to the surface.

Is that it, do we stop there? Not at all.

Once they discover their true spiritual nature, we can introduce them to God- the one our souls long for- and show them the difference a connection with God makes.

They can encounter Jesus through the gospel accounts, and see how he not only was fully one with God, but the only one who can take us to God.

We can invite them to choose full life by joining God, and his plan.

Stir is an evangelism course, but it is so much more.
